What Is Sun Sounds of Arizona?

Sun Sounds of Arizona is a radio station that broadcasts the reading of over 200 newspapers and magazines for people who cannot read print due to a disability.

Listeners use Sun Sounds because of blindness or low vision or because they have difficulty holding print materials due to arthritis, cerebral palsy, a spinal cord injury, ALS, Parkinson's, or dyslexia.

Listening devices are provided to individuals, organizations, and facilities free of charge. The on-demand service and the audio stream have no fee, making the service widely available to those in need.

Volunteer readers enable Sun Sounds to air programs 24 hours a day, 7 days a week.

Sun Sounds programs include local and national publications, grocery ads, and audio-described movies. Other shows cover science, business, sports, politics, lifestyle, disability, and community issues. There are also Spanish-language programs and shows for children.

How to Listen to Sun Sounds
